

HEARINGSUCCESS PORTAL

WHAT IS IT?

A convenient online portal filled with auditory skills training tools for listening practice. It also includes educational information on hearing health and technology, communication tips and links to online communities.

WHAT DOES IT DO?

It gives your clients access to auditory skills training resources that will give them listening practice to help improve their everyday communication.

WHAT ARE THE KEY BENEFITS?

- Offers easy access to auditory skills training resources for listening practice outside of clinic
- Differentiates your services and promotes individualized care
- Supports your clients in taking an active role in their hearing healthcare

WHO IS IT FOR?

For all clients, regardless of age or level of hearing loss or type of hearing technology used and for the professionals who serve them.

HOW CAN I DEMO IT?

Visit **HearingSuccess.com**. Register by entering your professional email address, name, and specify you are a professional. Once registered, you can explore all the programs and resources available.

To demo with clients, guide them to register (by entering email address, specifying if a parent or adult, and what type of hearing technology they use). Once registered, relevant resources will be displayed (i.e., age and technology appropriate) for you to recommend.
